### REMARKS

Claims 1-2, 4-6, and 8-12 are now pending in the application. It is proposed to amend claim 1 to correct a typographical error that has apparently been introduced by way of the Examiner's Amendment as expressed in the Notice of Allowability. In particular, line 7 of the Office's amended claim has a semicolon immediately after the word "wherein", so that the claim reads:

"Claim 1 (currently Amended): A radio transceiver, comprising:

...  
a speed estimator, for obtaining a measure of relative velocity of the transceiver,  
*wherein;*  
the measure of relative velocity is used ...."

(Emphasis added.)

However, in the Letter Regarding Proposed Claim Amendments, Applicant proposed an amendment to claim 1 that would have a comma following the word "wherein", not a semicolon.

Moreover, the use of the semicolon as expressed in the Examiner's Amendment does not make syntactic sense, since one would expect an additional clause or list of clauses to follow the word "wherein". A comma would announce such a list, whereas the semicolon confusingly terminates the expressed thought.

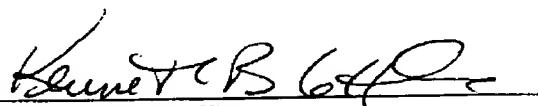

Correction of this typographical error would neither raise new issues nor require any additional searching on the part of the Office. Therefore, it is respectfully requested that the amendment to claim 1 be entered, and that the application proceed to issuance upon payment of the issue fee.
